

Activities – Holiday Video Diary

ACTION PLAN

- [] Remember you are on holidays, so don't work too hard.
- [] Plan what you want you want to film and what you don't want to film each day. A few activities a day as well as a few fun everyday moments would be perfect. But remember the rule, the more you film to harder it is to edit.
- [] Focus on capturing shots that help you to tell the story of your holiday. Get a variety of shots from each location.
- [] Shoot both videos and photos of your holiday.
- [] Get your children to draw some pictures of their day and take some photos to include in your video story.
- [] Aim to create a video story every day or every couple of days.

When you edit your Video Diary, always start with a slide that shows the date and location. Keep the footage that you have of each location together, but you can mix up the video from the day as much as you like. Aim for about 1 min a day or longer if you are creating a diary of multiple days.

- [] Upload your finished video to social media and share it with your family and friends.
- [] When your holidays are over combine all of your video diaries together and you'll have an amazing video story that covers all of your holiday.
